RISK OF SUBSTANTIAL LOSS

WARNING: Using SuperOscar materials you can lose substantially more than your entire initial investment, up to and including bankruptcy. Do NOT invest funds you cannot afford to lose.

Additionally, always have some type of insurance or hedge in place should your losses compound and become more than you can afford to lose. This is especially true if you run the **short side of the strategy or sell short any security** — there is **no limit** to your potential losses on a short position.

When you buy on margin, the **long side of the strategy can also suffer losses greater than your initial investment**. You are solely responsible for maintaining a hedge or other protective measures. SuperOscar does not provide, manage, or operate any insurance product or hedge fund on your behalf.

THE EXCEPTION — GENERAL SUPEROSCAR HEDGE FUND

If you choose to subscribe to the General SuperOscar Hedge Fund, then SuperOscar will manage that fund to cover some of your risk. However, there is **NO GUARANTEE** as to the success of the hedge fund in covering your risk. Even with this subscription, only risk funds that you can afford to lose.

FOR RESEARCH AND EDUCATIONAL PURPOSES ONLY

Any and all use of SuperOscar trading materials, training, or software is strictly for **research and educational purposes only**. Under no circumstance are any signals generated by the software, or any statements in the training materials, to be considered **investment advice** or **recommendations to buy or sell any security**.

No one at SuperOscar is a securities registered representative. Therefore, SuperOscar IS NOT QUALIFIED to offer or provide investment advice.

YOUR RESPONSIBILITY

Any use of SuperOscar resources is **at your own risk**. Please consult with your own qualified investment advisor, accountant, tax professional, and financial advisor **prior to accepting or using any SuperOscar Trading materials or resources**.

CAUTIONARY STATEMENT — DAY TRADING STATISTICS

A significant majority of day traders — potentially up to 95% or even higher — are estimated to lose money. Studies indicate that a large percentage of traders lose money within a short timeframe. SuperOscar makes this cautionary statement so that you enter any trading activity with clear, realistic expectations.
